## Quality

Made of American poplar our shutters are engineered not to warp, split or sag. They are backed by the HomeOwner Rated Transferable Lifetime Warranty. We use the finest in paints, stains and finishes and Custom Color matching is available for every home at no additional charge.

## Craftsmanship

Time honored construction methods are utilized, mortise and tenon joinery, tension-adjustable louvers, extensive wood seasoning, engineered components, continuous tilt rod linkage, monolithic louvers and more. Our shutters are built to last the life of your home.

## Design

Total custom design options include louver sizes 1 ½", 2" 3", 4" & 5" . Our HorizonView option eliminates the center tilt rod. Louvers are available in moveable and fixed, and we have several raised-panel options. Two wood texture finishes, standard and sandbrushed , offer design flexibility. Specialty Shutters can be built for any shape or size of window utilizing our industry first Pattern Horizontal System. Bypass Doors, French Doors & Arches are just a few of unlimited shapes we handcraft

## Reputation

From Professional Measure/Design to Factory installation, you can rest assured your Elite Series Shutters will exceed your expectations.

# O'Hair Shutters
